

## THE COLLISION

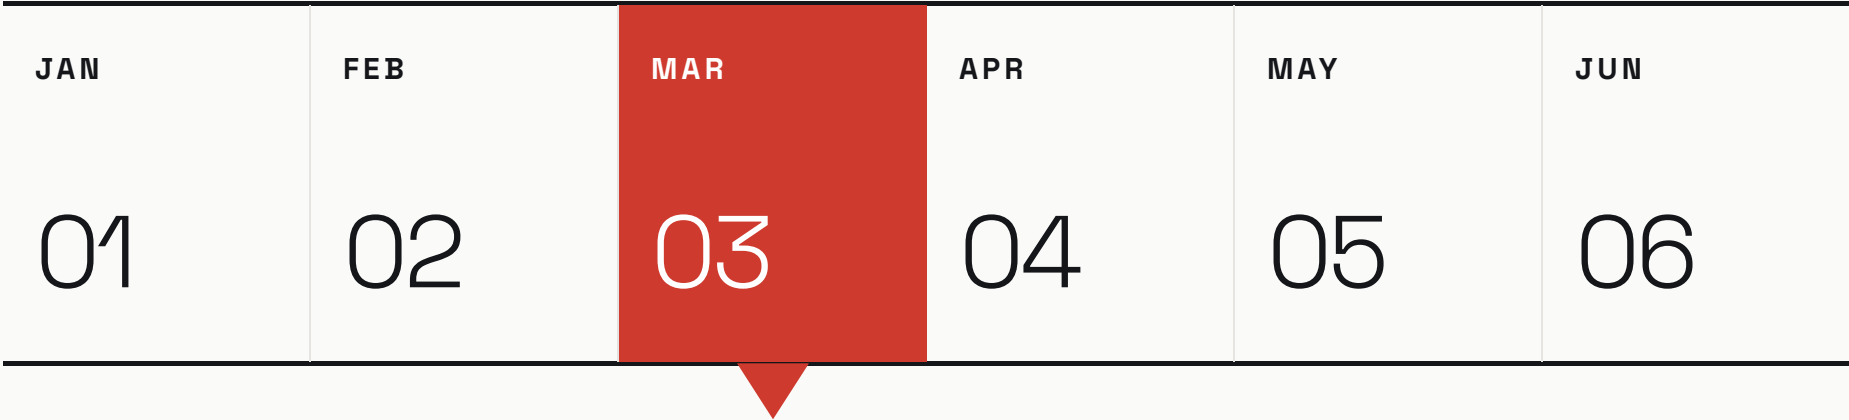

# Two renewal dates. One board that only tracks one of them.

Your insurance and your management contract don't renew on the same day. Most boards only have a reminder for one.

TIMELINE ONE

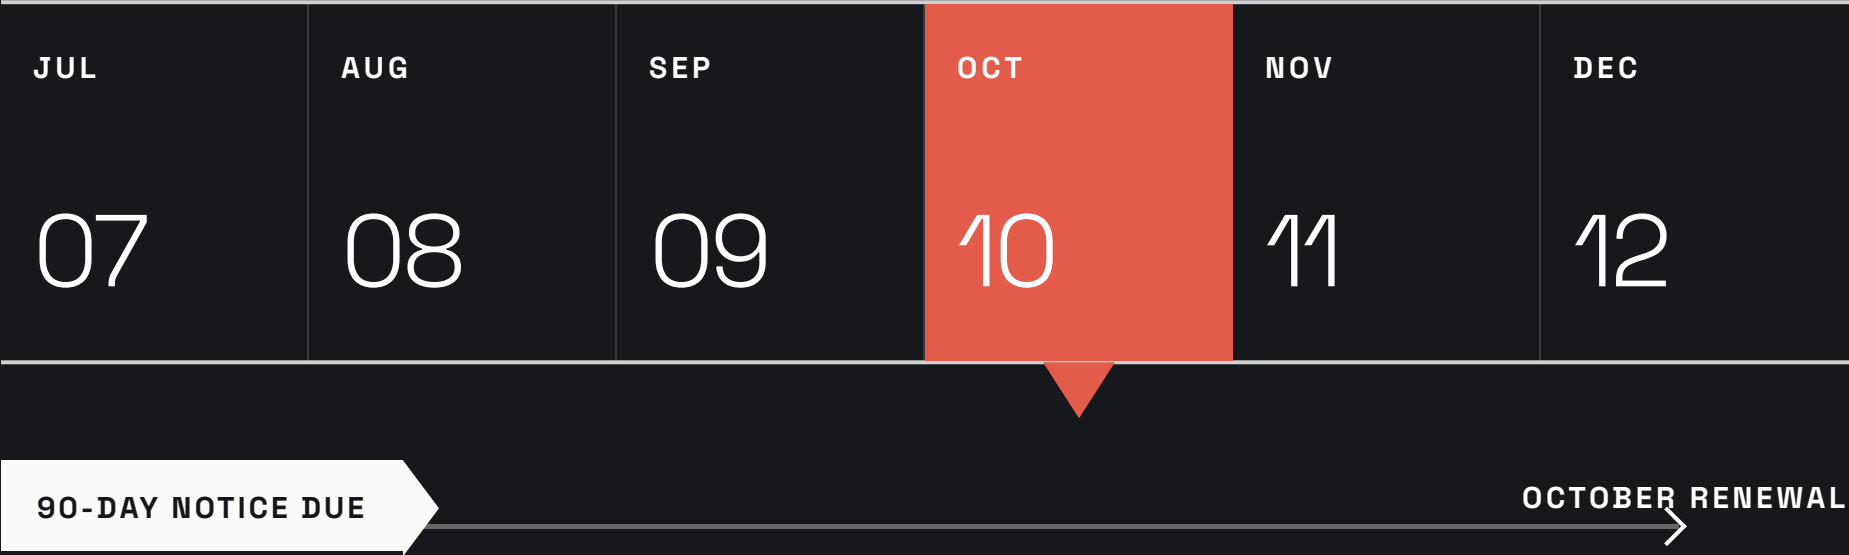

# Insurance renews in March.

Rate increases and coverage gaps surface here — usually with weeks, not months, to react.

TIMELINE TWO

# Your management contract renews in October.

Seven months separate these two dates. Boards that track only one lose leverage on the other.

## WHY IT MATTERS

A claim history shapes  
your next **contract**. A  
contract dispute  
shapes your next  
**quote**.

Check both renewal dates in your files this week.
